A Corner of Nursery No. 2

Typical blocks of *Arborvitae*, *Blue Spruce* and *Perennials*. Demonstration gardens on right.

Lining Out Stock

We carry a great variety of small evergreens for growing on in our own nursery. A compact mass of fibrous roots is typical of this stock (note the *Hemlock* illustrated), and is insured by rich fertile soil and a high state of cultivation maintained throughout the year.

Sure-Selling Sizes in Two Popular Evergreens

Small Evergreens

All our babies—like the Little-Tree Spruce illustrated at the left—are hand-trained in the way they should grow. Careful clipping while young lays the foundation for fine, bushy, even specimens as the trees mature.

Little-Tree evergreens have had this careful care from the year they were born.
